Page 11 Exercise 3 - The rise of English

1. -
2. Yet only 2000 years ago the most important language in Britain, which was then a Roman colony, was Latin.
3. Cherokee, which is spoken by about 20000 people, has as many speakers now as English had in the year 500.
4. Even at the time of William Shakespeare, who lived at the end of the 16th century, hardly anyone outside England spoke the language.
5. Four hundred years later, English is used as a second language by 750 million to 1 billion people, who have learned it in many different environments of course.
6. English, which is the mother tongue of only 350 million people, has become the language of international communication.
